Instructions to add Munch Monitor to your iPhone home screen.

1. First, open your internet browser and open up Munch Monitor and login;

- Now you're logged in, you need to select the share button at the bottom of the screen. Scroll down until you see "Add to Home Screen" and click it.

3. You have the following appear, you can adjust the name as you like and then click add and it will appear on your home screen for easy ordering ☺
